# COLIN McARTHUR

(pictured left)

DESIGNER

I make stuff. That's been my thing as long as I can remember and I count myself lucky to be able to do it professionally.

Whether it's designing and coding websites, creating brand identities, illustrating or animating, I'm happiest when I'm making something cool.

I've been designing professionally for 6+ years and I'm at a point where I'm both confident in my ability and excited about what I'm going to get into next.

## MY EXPERIENCE

### BIG THINK

2014 - PRESENT

#### Digital Designer

I handle the wire-framing, UX, design, and often front-end build of websites and digital projects. I also contribute motion graphics, illustration, branding, and creative direction where necessary.

### CHUNK

2013 - 2014

#### UX Designer

My primary responsibilities were wire-framing and UX work for games. I also provided supplementary design and illustration.

### HUZUTECH

2012 - 2013

#### Designer/Illustrator

I created the UI and assets for a white-label social platform, working closely with a team of talented developers.

### WE MAKE SENSE

2011 - 2011

#### Junior Designer

My first foray into digital proper was a great learning experience. I started coding properly and got to work on some great projects.

## MY EDUCATION

I have an NC and HND in Graphic Design from Cardonald College and City of Glasgow College respectively. I'm glad I got a grounding in print design before moving into the digital space - I feel like it's given me a good eye for typography, spacing, and colour theory.

## (SOME OF) MY INTERESTS

### COFFEE

Sweet sweet caffeinated goodness

### HAND LETTERING

Still a beginner but getting better all the time

### LIVE MUSIC

I love getting out to as many live music events as I can.
